

Prosirius Technologies LLC

Agile Solutions for a Mobile World™

COMMERCIAL SOFTWARE

Prosirius Technologies develops and markets several innovative commercial software products. Our software is web-enabled and capable of functioning with desktop and mobile devices. For a list of our offerings, please see www.prosirius.com.

CUSTOM SOFTWARE

Some organizations have unique needs that require custom development. We work directly with you to gather requirements, design, prototype and develop a complete solution.

WEBSITES AND HOSTING

From simple static websites to interactive, content rich database-driven web applications, Prosirius Technologies can build a unique and effective website for you.

We are partnered with one of the biggest names in the business, GoDaddy.com. Please visit www.prosirius.net to get started.

TECHNOLOGY CONSULTING

Prosirius Technologies provides technical consulting in many industry and technology-specific areas. In addition to being experts at software development, we can contribute to the success of business process re-engineering, technology selection and implementation.

9/2009

Technology touches every part of your organization. From accounting to human resources and the products you deliver, computerized systems have been in place for decades. We understand how important they are so we offer a full-line of services dedicated to keeping your business running smooth.

A bit about us

Prosirius Technologies is a privately held business engaged in software development, website development and technology consulting. The company was founded in August 2003 with the guiding principle of creating "agile solutions for a mobile world" by offering smarter mobile and Internet-enabled software, higher standards of service and lower cost of ownership.

The word Prosirius is a combination of "Pro"fessional and "Sirius", the brightest star in the sky. It is pronounced Pro - 'sir-E-us.
